“Learning together; to be the best we can be”

1. Scope

- 1.1. This policy relates to all academies across Nexus MAT where provision is in place for Key Stages 3, 4 and 5.

2. Context

- 2.1. This document sets out the Nexus Multi Academy Trust Careers policy including arrangements for managing the 'access' of providers to pupils in academies.
- 2.2. This 'access' is for the purpose of giving pupils information about a provider's education, work or training offer. This complies with the MAT's legal obligations under: Section 42A of the Education Act 1997 which requires governing bodies to ensure that all registered pupils at the school are provided with independent careers guidance from year 8 (12-13 year olds) to year 13 (17-18 year olds) and is in line with the DfE legislation Careers guidance and access for education and training providers: Statutory guidance for governing bodies, school leaders and school staff (January 2018).
- 2.3. In addition, the Education Act (2002) places a statutory duty on schools to secure access for pupils to independent and impartial careers guidance. This guidance will promote the best interests of the individual pupil and will include information on all options available to them, including apprenticeships and other work-based learning.
- 2.4. Key points in the Statutory Guidance includes "*the duty on schools, to secure independent careers guidance for all year 8-13 pupils. This is intended to expand advice and guidance for young people so they are inspired and motivated to fulfil their potential*".

3. Our strategic intent

- 3.1. Nexus academies will support every pupil to realise and develop high aspirations *and* consider a broad and ambitious range of careers through a combination of direct/indirect experiences and learning opportunities.
- 3.2. At Nexus our vision is that we are constantly "**Learning together; to be the best we can be.**"

- 3.3. In order to be the best and achieve meaningful lifelong outcomes for our pupils we stand by and put our energy into effective working partnerships, exemplified by part of our mission statement:

Our employees and partners are passionate about being the best that they can be; providing opportunities for enriched learning and pathways to employment and independence.

- 3.4. We aim to inspire every pupil through 'real-life' contacts with the world of work as we know this can help them understand where different meaningful choices can take them in the future. Nexus MAT and individual academies will work with a range of organisations and local authorities to achieve this for our young people placed within our schools.
- 3.5. Nexus academies will measure the effectiveness of their careers activity by considering both the attainment and the destinations of their pupils. Success will be reflected in more numbers progressing to work placements, apprenticeships, traineeships, and other positive destinations such as employment or a further education college. This will help to close the destinations gap (i.e. reduce the number of NEET¹s) between young people from disadvantaged backgrounds and others.
- 3.6. Nexus academies will provide 'Advice and Guidance' as part of a coherent programme of activities that inform, inspire and motivate young people, preparing them for work and helping them to understand where different education and training choices could take them in the future. (This is in line with DfE statutory guidance 2014)
- 3.7. We understand this 'programme' must take into account pupil's potential life-long careers not just their immediate 16+, 17+ or 18+ placements.

4. Training

- 4.1. Key staff in our academies will be identified and encouraged to access and complete appropriate levelled training in careers advice and guidance. The designated course will be determined at a suitable level following forthcoming recommendations from area Careers coordinators/advisers.

5. Role and Responsibilities

¹ **N**ot in **E**ducation, **E**mployment or **T**raining – Local Authorities have statutory duty to monitor and report statistics. <https://www.gov.uk/government/collections/statistics-neet>

- 5.1. As the responsible authority, the MAT has a duty to ensure that statutory duties are being exercised effectively and that compliance with guidance is enabled and facilitated at a local academy level.
- 5.2. The individual academy will secure and work directly with its allocated 'Careers Adviser' for expert guidance and advice. This advice and guidance may take many different forms, including planning meetings, networking, practice sharing events, information evenings, outside speakers in classes, general studies programmes, careers fairs meetings with mentors, transition meetings for pupils and advice given on work experience programmes as well as face-to-face interviews with an independent adviser.
- 5.3. In order to provide for the real needs and circumstances of all our pupils, face-to-face interviews with independent advisers will be provided for those pupils to whom the academy deems it to be the most suitable form of support. This will be in addition to or alongside interviews offered by the academy's own careers staff, where information will also be given in a differentiated, impartial way, in line with their communicative needs.
- 5.4. The individual academy will provide information and verbal briefings on pupil profiles to help independent advisers and mentors to understand their potential outcomes and current performance and will expect this information to be given due consideration and to be used in confidence in line with General Data Protection Regulations (2018).
- 5.5. The individual academy will quality assure careers guidance, including that offered independently, to ensure that pupils are receiving advice that is impartial and is relevant to their needs, and will raise any concerns that might emerge in good time with advisers.
- 5.6. The individual academy will provide a range of careers activities, which may include work-related learning, work experience and provider accessed events.
- 5.7. The individual academy will work with a range of other schools/providers (Mainstream and Special designation), further education and higher education providers, and work-based training and apprenticeship providers in order to ensure that pupils have access to a range of options at each stage of their education.
- 5.8. The journey of education and lifelong learning can take many different turns and it will be each Academy's responsibility to achieve and sustain a person centred and responsive 'careers offer' throughout the pupil's time with them. As a reference to work to; the Academy will look to establish a person centred pathway for each pupil, capturing the aspirational goals and planning

needed to achieve their desired destination. This individual pathway plan alongside a child's Education, Health & Care Plan will form the key planning and reference tool for the team around the child and act as a reference to the multidisciplinary planning/support required by the pupil going forward.

5.9. Pupils will have access to on-line advice, including the National Careers Service website. Pupils will also be advised of the NCC (National Careers Centre) telephone helpline number. The academy will evaluate its success in supporting pupils to take up education and training which offers good long term prospects through analysis of internal destination measures.

5.10. This data will be shared with the local authority, parents and significant others in line with data protection.
